BABYBACKDOGE STORY

BabyBackDOGE is SUPER-SMART DOG Coming from 22th century. Leaping through time via magnetic date to trace back to 2021, He will bring us a FUTURE TOKEN that has never ever existed.

BabyBackDOGE - \$BBDOGE is a super token with the operation regime of the future token era which will allow the highest profits from the first days.

BABYBACKDOGE TOKEN TECHNOLOGY

The other feature of \$BBDOGE is Autosnip. Based on the available regime of some apps and platforms such as PooCoin, Bugged, etc.

BBDOGE's difference is that you can target even when you are farming or staking. It looks like a so-called mini-game "Funny Farm". You can adjust the specification of the tokens or coin as you wish, such as the total capacity, total burn, liquidity, launching date, etc.

When the tokens or coins meet the criteria, they will automatically pump up in your fields. All you have to do now is just click to see their specifications instead of visiting other websites. The more CakeLP \$BBDOGE you own, the more priority you have.

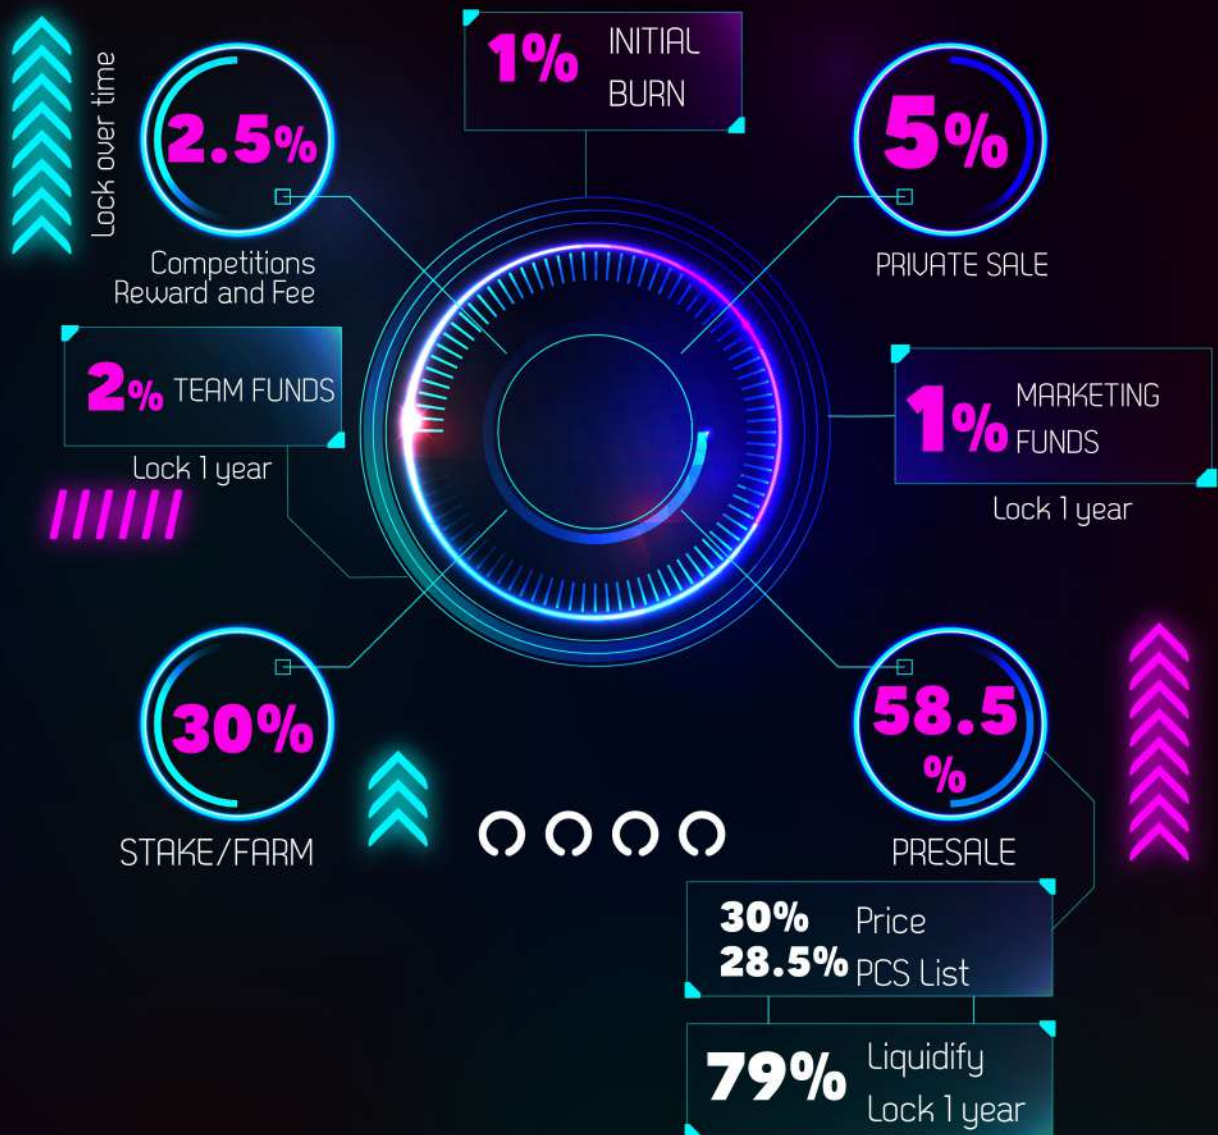

Your eyes won't be covered as playing gamble in order to avoid scams. This is not all. The feature that helps \$BBDOGE become a monopoly in the Crypto market is the automatic analysis of Token data, which shall determine the potential tokens, display the percentage of risk when investing in such tokens.

You've heard about a win-chance analysis machine in Casino? You just need to slightly open your cards, the system shall make the statistics based on your game's history and accordingly exclude the inappropriate cards, only the potential cards can be presented in the list.

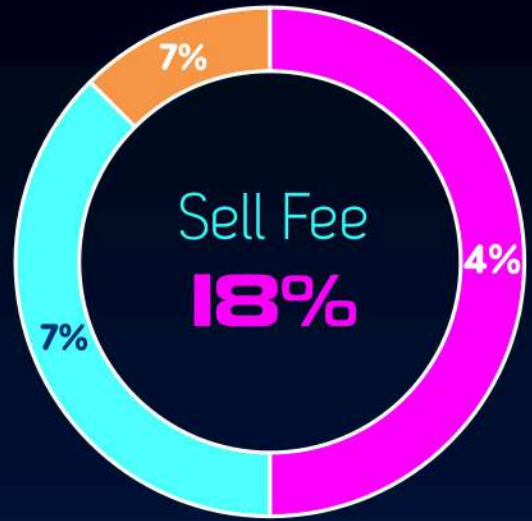

DISTRIBUTIONS

The system has created a total of 1,000,000,000,000,000 BabyBackDOGE tokens. The Development team has optimized distribution for maximum efficiency of the token. 2.5% of tokens will be part of the Competitions rewards. 1.2% will be set aside for a private sale to include paid influencers and promotions. 58.5% will be used for PreSale, 79% add to Liquidity, and other will be distributed and burned. Overall BabyBackDOGE is moving forward with a plan to benefit our users as much as possible.

CONCLUSION

The BabyBackDOGE token is unlike anything else the BlockChain world has seen. It has exceptionally unique tokenomics, it is developed by an experienced and transparent team and it aims to improve currency while saving millions of animals in the process. Through the development of new technology and marketing, BabyBackDOGE will become the future currency on earth. The journey will be filled with wins and losses, but loyal members will see a significant return on their investment.
